

ATI – Adaptive Technologies, Inc.

Adaptek Systems is an innovative leader in standard and custom automated production equipment solutions for the electronics, electro-mechanical and related plastics industries. Adaptek's engineering expertise in cost effective production systems combined with flexibility in design concepts, offers its customers many options that are needed today to remain competitive and profitable. With more than 17 years in the automation solutions business and hundreds of custom automated systems currently in production in various locations around the globe, Adaptek Systems is a consistent industry leader in cost effective production equipment. Additional information about Adaptek Systems can be found at www.AdaptekSystems.com.

Northern Apex is recognized and respected as a pioneer and a lead integrator in the world of RFID (Radio Frequency Identification) technology. Since 1998, Northern Apex has developed a reputation for innovation, customer focus and affordability. Providing proven RFID integrated components, engineered solutions and complete RFID turnkey systems, Northern Apex has fielded hundreds of RFID solutions by leveraging a keen understanding of the physics of RFID, a broad knowledge of the available technologies and a passion for customer service. To learn more about Northern Apex's services, visit www.NorthernApex.com.

API Alliance is a custom manufacturer of electronic controls and electromechanical assemblies with unique value added engineering design services. With your goals in mind, our team strives to provide flexible production options, strong communication and the highest level of customer service. Since 1994, API Alliance's customers have benefitted from the pride of project ownership from our team and we hope to become your "Partner in Production" as well. To learn more about API Alliance's services, visit www.APIAlliance.com.

Automated Laser Corporation is a proven industry leader in standard and custom laser systems for a wide range of precision cutting, welding and marking applications. Automated Laser offers you one of the best long term cost advantages available. Laser processing eliminates maintenance issues such as perishable tool replacement, significantly improves quality, minimizes stock scrap and greatly reduces time consuming set-ups. Simply, our laser systems offer precision and repeatable performance, like no other process solution. Additional information about Automated Laser can be found at www.AutoLase.com.
